“ My fiance and I met Greg in January of 2019, and I really don't think I have ever met a kinder, more genuine, caring, trustworthy soul. He had so much passion for his technical skills, he was always telling us new ways of fixing what we couldn't even figure what we had done. I enjoyed being around Greg. I'm truly grateful to have had the privilege to call him FRIEND. I'm sorry for this loss in my life. I'm so sorry for the families loss he will truly be missed. Love you to the motherboard.

“ I met Greg ten years ago and we quickly became good friends with several mutual interests. For several years Greg would purchase fireworks and do a show for our family at our farm, One time the fireworks tipped over and he had to run to avoid being hit lol. Greg was a friend I could count on if needed. Example.... My parents home burned down and my water lines were melted. I called Greg and asked for some help. He was there with his tools to get the water on in about 15 minutes. I had not seen Greg in quite a while and I hate that now that he's gone. I'm gonna miss you Brotha !!
